ECLIPSE TOMORROW

THE MOON WILL PASS BETWEEN EARTH AND SUN.

VISIBLE FOR HALF HOUR

While Only Partial Here, the Southern Hemisphere Will Have the Real Thing

People residing in Maryville, will have the opportunity next Friday evening of seeing a partial eclipse of the sun by the moon, provided weather conditions are favorable. The eclipse, which is scheduled is total in the southern hemisphere and the southern part of the northern will cover little more than half the face of the sun in this latitude. The eclipse should be visible from half to three-quarters of an hour before sunset.

Perhaps a more pleasing spectacle than the eclipse is the position in the western sky during the present month of some of the most brilliant of the planets in particularly advantageous positions for observations. Mercury, Saturn and Venus all show well in the evening sky. Venus and Mercury are beautiful objects on account of their brilliance.

To the star gazers who linger later there is the added pleasure of seeing the great white Jupiter breaking above the southeastern horizon shortly after the three western beauties set. Later the spectacle will be increased by the ruddy spark of Mars, which will appear in the early morning sky very nearly in the position occupied by Jupiter in the evening.

These five planets are easily recognized, four of them being much brighter than any of the stars, though Saturn has rivals, which shine as bright. All the planets, however, change their position relative to the fixed stars and the horizon so rapidly that their course across the sky is marked on each succeeding night. One need not be an astronomer to appreciate the beauties of the night sky or to become acquainted with the principal planets and constellations to the extent of knowing their positions, and principal distinguishing marks.

Venus will be very near the sun at the hour of Friday's eclipse and possibly will shine with added brilliance for a short time on account of the twilight which accompanies the occultation of the sun.

We can't give you new eyes, but we can make your old eyes as good as new with a pair of our carefully-fitted glasses.

We understand eyes and glasses—our business is to fit the eye with the other.

Let us help you, as you used to see—possibly as you never saw.

at CRANE'S

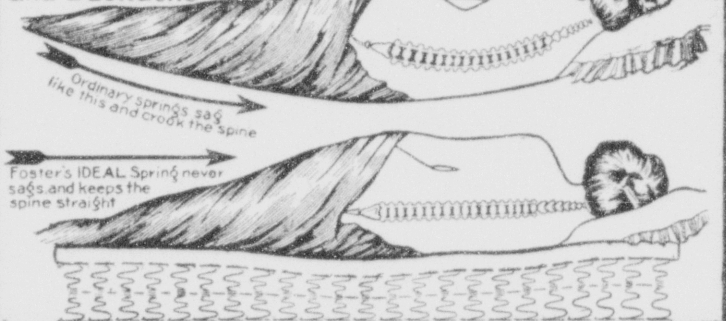

You'll Trade With Us Later Why Not Now?

Our business is growing fast. The right store—the right goods, right quality, right service; these things are doing their work. And one other thing is worth noting: Our prices are lower than elsewhere. A store of high quality—not a store of high prices. We show the finest Spring lines of clothing and furnishings for men, young men and boys in the city. As surely as you want the best, you'll come sooner or later to this store. Why not now?

Montgomery-Corwin-Murrin Clothing Company

They Don't Sag

Why Ordinary Spring beds Cause
Insomnia, Nervousness
and Backache

A woven-wire spring, however good, can never be healthful, because its construction is wrong. It hangs like a hammock from rails at either end of the bed, sags in the middle—at first temporarily, then permanently—and cramps the spine at waist and neck, hence the backache, sleep-disturbance, and nerve-irritation. Ask your doctor.

Foster's IDEAL affords lux.

WHEN once you have used the Foster "Ideal" Bed Spring you will have no other because there is no other that brings such restful repose. This spring is made right and it stays right. Let us show you.

Foster's IDEAL Crib

Baby can't get out or stick its head through

You have no doubt been considering the purchase of a crib for the "little one" and there are certain points you have mentally required. The Foster Ideal Crib meets every requirement. And the price is right and within your reach.

Maryville's Leading Clothier

To You, College and High School Chaps Attending the Track Meet

Certainly you will not be satisfied with clothes that are "Just Clothes"—will you? Not on your tin type, I hear you say.

"Sure thing" if you are a "Good Dresser" You don't wear Clothes just because

"It is against the law to go naked."

When you buy a suit there should be certain "well defined lines" to that suit, which will emphasize

"A young man's lithe and youthful figure to advantage."

All of Berney Harris' Young Men's Clothes, are especially designed on these lines—and the assortment of models so varied that you can choose the "Military" Athletic," "or College Club" shape thereby reflecting

"Your own personality and good taste by the Clothes you wear."

Don't think because we sold so many nobby suits before Easter and since at \$20.00, \$22.50, \$25.00 and \$27.05 that we don't carry any less priced—That is a mistake—Have many nobby suits at \$18.00, \$16.50 and \$15.00 and these latter are cut on the same nifty models and made by the same skilled workmen as our higher priced suits.

In our popular priced make, which is substantially made—am offering a great value in—

"All Wool Worsted Men's Suits at \$12.50.

You are invited to use our reading room and make this store your headquarters, tell your friends to meet you at this store—"Where the Prices are so reasonable—and the Quality and Style so good—That all goods can safely be sold with the guarantee of Money's worth or Money back.

SAGE AND SULPHUR

Made Her Look Twenty Years Younger

READ MRS. HERRICK'S SWORN STATEMENT

STATE OF NEW YORK } ss.: ROCHESTER, N. Y.
COUNTY OF MONROE }

Nancy A. Herrick, being duly sworn, deposes and says: When I was a girl I had a head of heavy, long, dark brown hair which was the envy of my friends and which attracted the attention and remarks of strangers, but as I grew older it commenced to come out. When my hair was quite thin and gray, I was induced by the many good reports I had heard of Wyeth's Sage and Sulphur to try a bottle; and you can imagine my satisfaction when I found my hair was fast coming back to its natural condition. I continued to use Sage and Sulphur until my hair was as heavy, dark and smooth as when I was a girl of sixteen. It is now four years since I began using Sage and Sulphur and my hair is in splendid condition.

For the Finer Fabrics

If you ever tried to wash your fine laces and fabrics with ordinary yellow laundry soap, you know it's simply out of the question. All yellow laundry soaps contain rosin, and rosin is injurious to finer fabrics.

Sunny Monday contains no rosin—that's why it is white. It also contains a wonderful *dirt-starter* which saves rubbing and spares your clothes. Sunny Monday washes in hot, cold, lukewarm, hard or soft water. It's really the only safe soap for finer fabrics.
